

## Information about the speakers

---

**Speaker** Prof. Ana Deletic

**Vita** Ana Deletic is a Professor in Water Engineering and Associate Dean of Research (Engineering) at Monash University. She is also Director of Monash Infrastructure which coordinates Infrastructure related research across Monash to deliver impact. Her area of expertise is integrated urban water management. She led development of a number of green nature based water treatment systems that are now widely adopted in Australia and abroad. Ana is a Fellow of Engineers Australia and the Australian Academy of Technological Sciences and Engineering (ATSE), and Editor of Water Research. In 2012, the Victorian State Government awarded Ana the Victoria Prize for Science and Innovation (Physical Sciences) for her lifelong achievements in stormwater research. Ana is the incoming Pro Vice Chancellor (Research) at University of New South Wales, a position she will commence in July 2017
