

Information about the speakers

Speaker Laura Gatti

Vita Laura is an Agronomist, Landscape consultant and Landscape designer.
Laura founded her firm in 1992. The practice specializes in horticultural consultancy, tree care, tree management plans, soil consultancy, green infrastructures planning with special skills and experience in the restoration of historical sites and greening integrated to buildings (green roofs, green wall, hanging gardens).
After graduation in Agricultural Science, at the University of Milan, she reached the Post-Graduate Diploma in Parks and Gardens at the University of Turin.
She frequently works in interdisciplinary teams and has been worked with major international design firms, teaming up on large scale development projects in Italy, Europe, Asia.
From more than ten years, her skills are requested in case of integrated design of vegetation and buildings.
She's co-designer of the multi-awarded 'Bosco Verticale' by Stefano Boeri. Founder and first president of the Italian Society of Arboriculture, a non-profit organization for tree care professionals.
President and Italian representative (Board of Directors member 2000-2005) of the International Society of Arboriculture.
Since 2005 she's Adjunct Professor at the Faculty of Agriculture, University of Milan, teaching 'Parks and Gardens', 'Nursery Production, Construction and Management of Green Areas', 'Sustainability in Landscape Construction'.
She has been awarded by the Targa Fabio Rizzi - Professional of the Year - granted by the Fair of Padua - Flormart-Miflor.
