

Information about the speakers

Speaker Prof. Andrés G. Ibáñez

Vita Professional Experience and Contribution
Founder and director of the Technical and Scientific committee,
RECIVE
Professor at the National University of Colombia and Pontificia
Universidad Javeriana
Board member of the World Green Infrastructure Network

He has led more than 40 design-built projects for clients in Colombia and the United States, and has worked as green building consultant in Colombia and Hong Kong.

He holds a Master in building and doctoral studies at the University of Hong Kong. As a researcher in Colombia, Hong Kong, and Germany, he has written on eco-productive architecture. He has been lecturer and T.A. in National University of Colombia, the University of Hong Kong, Pontificia Universidad Javeriana and Universidad Piloto de Colombia.

He is a member of the World Green Infrastructure Network and founded the Latin America Green Infrastructure Network. He has been a speaker in seminars and conferences in the United States, France, Australia, Singapore, México, Peru, Hong Kong, China and Colombia. He is author of the green roof technical guidelines of the city of Bogota, Secretary of environment, 2011.

He received the Green talents Award, German ministry of Education and Research (BMBF) Germany, 2011-2012; and the Humboldt Climate Protection Fellowship 2014. As a doctoral researcher in the University of Hong Kong he has investigated buildings delivering environmental services in urban environments and methods to assess building eco-productivity using a multi-scalar approach.
