

Information about the speakers

Speaker Leila Tolderlund

Vita Leila Tolderlund is Associate Chair and Assistant Professor CTT in the Landscape Architecture program at the University of Colorado Denver.

Her main area of expertise and research is in Landscape Architecture and Urbanism - Design, Planning and Theory. She currently teaches Studios, Core classes, Electives, Cross-disciplinary, and International Studio classes.

Leila Tolderlund also practices Landscape Architecture with her own firm - primarily on projects related to green roofs, living walls and green facades. She is LEED (Leadership for Energy and Environmental Design) and GRP (Green Roof Accredited Professional) accredited.

Her primary focus in her teachings and professional work is to promote a holistic approach to sustainable design strategies using green infrastructure and living systems in dense urban settings.
